

Waste Free Wednesdays at H.P.S.

As part of our current ECO focus on **Waste** we are introducing **Waste Free Wednesdays** to reduce our use of single use materials and encourage sustainable choices within our school community.

Every Wednesday we would ask that your child's lunch contain as few items as possible that must be thrown away. Ideally, your child's lunch will only contain items that will be eaten, composted or recycled.

Reusable containers are a handy way to pack a waste-free lunch. They also make it easy to buy food and drink in bulk which can save money over time.

We are really excited for you to join with us in this new initiative and to make a positive impact on our environment!

Many thanks. The pupils of the H.P.S ECO Committee
& Mrs McKeown
